Dr. Mani Vannan Discusses Use of Siemens Revolutionary True Volume 3D TEE Technology

May 29, 2015

Learn how 3D TEE offers real-time imaging of heart structures for both anatomy and blood flow – visualizing valves and heart chambers, identifying valve diseases, mitral regurgitation jet placement, and improving measurements automatically.

This 12-minute webinar features Dr. Mani Vannan of Piedmont Heart Institute in Atlanta. Topics covered are:

Viewing heart and dynamic blood flow in one view, real-time

Quantifying volumes automatically, daily use

Aiding in selection of interventional valve procedures

Mitral valve in 3D

Automatic quantification
